Safety Tips

As we work to clean up our neighborhood, we should all exercise caution so that we can prevent this day from being marred by any injury.

The following is a list of Safety Tips that help make this day a great success for all:

1. Watch out for traffic.
2. Be on the watch for snakes around logs, tall grass and other likely places.
3. Under no circumstances should you attempt to pick up syringes or hypodermic needles.
4. Avoid contact with poison ivy and/or poison oak.
5. Be alert to stinging insects, especially fire ants.
6. Do not attempt to compact (squeeze) trash sacks to gain room for more trash. Injuries from broken glass or jagged objects often occur as a result of this practice. Fill the sack with what goes in easily and then get another bag - we have plenty to go around!
7. Be careful to recognize your own physical limitations.
8. Your block captain has a First Aid Kit should aid be necessary.
9. Remember to drink plenty of fluids and wear any safety equipment provided.
10. Please wear closed toe shoes.

Special notes.

Please put aluminum cans into a separate bag so that they can be recycled and used again for something else. Also, see your block captain for specific instructions on the handling of tires at your site.
